#### DETAILED ACTION

- 1. The Amendment and Petition for Time Extension filed by Applicant on 01/30/2007 has been entered.
- 2. Claims 44-48 have been canceled.

## Response to Amendment/Arguments

- 3. Applicant's amendment and arguments filed on 01/30/2007 have been fully considered and they are found persuasive.
- 4. The rejection of claims 1-48 under 35 U.S.C. 102(b) as being anticipated by Whitmire et al., U.S. Patent No. 4,912,169 (hereinafter "Whitmire") is withdrawn.

#### Election/Restrictions

5. Applicant's election with traverse of claims 1-48 and 62-67 in the reply filed on 07/16/06 is acknowledged. The traversal is on the ground(s) that examination of all the claims will not place a serious burden on the examiner. This is not found persuasive because as state in the restriction requirement the product as claim can be prepared by another process.

Art Unit: 1713

Furthermore, the claim limitation, with respect to concentration, is not found in the process claims.

- 6. Please cancel non-elected claims 49-61.
- 7. The requirement is still deemed proper and is therefore made FINAL.

## Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple A nonstatutory obviousness-type double patenting assignees. rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., In re Berg, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); In re Goodman, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

- 9. Claims 66-67 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-21 and 23-60 of copending Application No. 10/780,989. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims cover substantially identical subject matter.
- 10. This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
- 11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert D. Harlan whose telephone number is (571) 272-1102. The examiner can normally be reached on Mon-Fri, 10 AM 8 PM.
